

Norwegian Winter Workshop on QCD in Extreme Conditions

Trondheim, Norway, 24-26 February 2010

Invited Speakers

Michael Buballa (Darmstadt)

Simon Hands (Swansea)

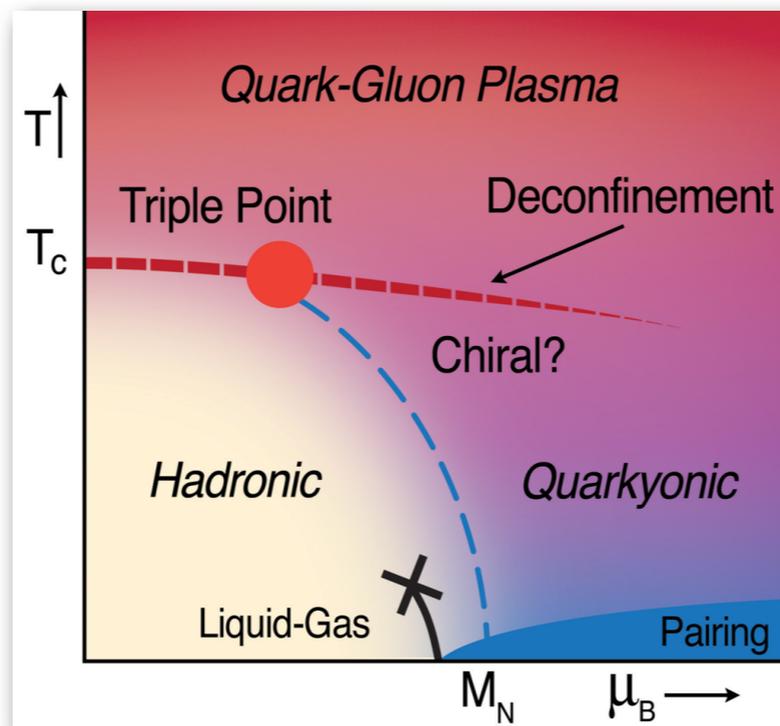

Mikko Laine (Bielefeld)

András Patkós (Budapest)

Robert D. Pisarski (BNL, tbc)

Tony Rebhan (Vienna)

Michael T. Strickland (Gettysburg)

Topics include

High-density QCD, color superconductivity, and Bose condensation

Chiral symmetry breaking and restoration

Lattice simulations at finite chemical potential

Quark-gluon plasma

Resummation techniques

Organizers

Jens O. Andersen (NTNU)

Tomáš Brauner (Frankfurt)

Lars T. Kyllingstad (NTNU)

Lars E. Leganger (NTNU)

Kåre Olaussen (NTNU)
